Summary

All processes are in compliance with the RLR regulations laid out by the Illinois Department of Transportation District 1 Bureau of Traffic Operations.

In 2014 **The City of Burbank** received approval from the Illinois Department of Transportation (IDOT) to install Red Light Running (RLR) cameras on the southbound approach at the intersection of 87th St and Cicero Ave. The installation followed a comprehensive analysis and justification process. The dates of the most relevant events are listed below.

- Date at which the justification report was submitted: **12/20/2013** approved: **2/20/2014**
- Submitted for installation: **5/14/2014** approved: **6/23/14**
- Date at which the permit and bond was submitted: **8/04/2014** and approved: **8/14/2014**
- Date at which cameras went live on the southbound approach: **9/27/2014**

After analyzing all of the available data, prior to the RLR camera installation, in 2011 there were 16 total crashes, 29 in 2012 and 25 in 2013, that is an average of 23.3 total crashes at 87th and Cicero per year. In 2015, one year after RLR camera installation, that number dropped to 19; a decrease of 18.45%.

Studies have reported that red light cameras reduce angle crashes. Although not much change, there still proved to be a downward trend at the intersection of 87th and Cicero. Before the RLR camera, in the year 2011 there was 1 angle crash, 2 in 2012 and 1 in 2013, in 2015, one year after installation, there were 0 angle crashes.
